# ABDULKADIR MUSTAPHA

*Front-End Developer · React & Next.js Specialist*

Lagos, Nigeria | Open to Remote & Relocation | +234 817 565 2611 | abdulkadir13686@gmail.com | LinkedIn | GitHub

## PROFESSIONAL SUMMARY

Front-End Developer with 2+ years of freelance experience building and shipping responsive web and mobile applications using React and Next.js. Skilled at translating Figma designs into pixel-perfect, performant interfaces, integrating REST APIs, and optimising Core Web Vitals. Comfortable leading projects independently in Agile environments and collaborating closely with designers and stakeholders to deliver business-focused solutions. Actively seeking a full-time or remote role where I can contribute to a product team and grow into senior engineering responsibilities.

## TECHNICAL SKILLS

| | |
|---|---|
| **Core** | HTML5, CSS3, JavaScript (ES6+), TypeScript |
| **Frameworks** | React, Next.js, Vue.js (familiar), React Native, Expo, Flutter/Dart |
| **Styling** | Tailwind CSS, SCSS, Styled Components, Bootstrap |
| **Tooling** | Git, GitHub, Vite, Webpack, npm/Yarn, Chrome DevTools |
| **Testing** | Jest, React Testing Library |
| **Other** | REST APIs, Figma, Responsive Design, WCAG Accessibility, SEO |

## EXPERIENCE

### Front-End Developer & Project Lead | *Freelance — Remote* *Jan 2023 – Present*

*Designed, built, and shipped client web applications end-to-end, from wireframe to production deployment.*

- Developed and deployed 5+ responsive web applications using React and Next.js; improved page load performance by up to 30% through code-splitting, lazy loading, and image optimisation.
- Built reusable component libraries that reduced feature development time by approximately 25% across projects.
- Migrated 3 legacy static websites to modern React-based architectures, significantly improving maintainability, SEO scores, and mobile responsiveness.
- Integrated third-party REST APIs and implemented client-side state management (React Context, useState/useReducer) for dynamic, data-driven UIs.
- Collaborated directly with clients and UI/UX designers using Figma handoffs to produce pixel-perfect implementations.
- Managed project timelines and deliverables using Agile practices (sprints, task boards), consistently meeting deadlines across multiple concurrent projects.

## KEY PROJECTS

### E360 Landing Page — github.com/13686adk

- Rebuilt legacy site in React, achieving measurably improved Lighthouse performance scores through asset optimisation and lazy loading.
- Implemented fully responsive layout ensuring consistent experience across mobile, tablet, and desktop viewports.

### Analytics Dashboard — github.com/13686adk

- Designed and developed a data-rich dashboard using React and Chart.js with dynamic chart rendering, filterable data tables, and real-time state updates.

- Focused on UX clarity — structured information hierarchy to surface key insights without overwhelming users.

**Task Manager App** — github.com/13686adk

- Built a fully interactive task management app with vanilla JavaScript; used localStorage for data persistence and dynamic DOM manipulation for instant UI feedback.

**Personal Portfolio** — github.com/13686adk

- Developed portfolio site with Next.js and Tailwind CSS; optimised metadata, Open Graph tags, and image loading for strong SEO and Core Web Vitals scores.

## EDUCATION

**B.Tech. in Project Management Technology** *(In Progress — Final Year)*
Federal University of Technology, Minna, Nigeria

## CERTIFICATIONS

**micro1 AI Interview Certification — Front-End Developer & Project Lead** | *May 2026*
Passed micro1's AI-proctored technical interview and officially certified as a Front-End Developer & Project Lead.
micro1.ai/apply-as-talent

- Meta Front-End Developer Professional Certificate — Coursera, 2024
- Responsive Web Design — freeCodeCamp, 2023
- JavaScript for Beginners — Coursera, 2023
